

Microsoft Operations Solution for Healthcare

Delivering the Future of Healthcare Today

Drive Growth and Foster Patient Relations

In this new era of the Affordable Care Act and value-based medicine, healthcare organizations are struggling to simultaneously increase operational/financial transparency, while also increasing efficiency and access to care.

Microsoft Dynamics and the MazikCare solution create maximum transparency and efficiency for innovative healthcare organizations by integrating financials, analytics and operations such as automating the Supply Chain.

Designed to empower people, streamline processes, and modernize and simplify the ecosystem, MazikCare helps hospitals and clinics:

- **Deliver more value faster**
- **Increase opportunities and reduce risk**
- **Drive user involvement and innovation with an easy-to-use mobile application**

One Solution in a Box for Healthcare

Healthcare Organizations need simplicity and modernization in the face of change. The MazikCare Solution-in-a-Box is a scalable and secure solution that drives regulatory compliance in a changing landscape, reduces cost, all with full integration to Microsoft Dynamics AX, BI, CRM, and Azure Cloud.

Healthcare Anywhere.

MazikCare goes beyond EMR and ERP with true mobile applications that take your solution with you from room to room, or from clinic to home visit. Facilitate Instant and secure knowledge share on multiple devices. Offer patients easy-to-use, intuitive and safe portals. Improve your quality of care with faster access to relevant data with dashboards and automatic notifications.

A 360-degree answer for today's healthcare challenges.
