

Back-to-School Solution

CDC-compliant health tracking that gives schools real-time visibility into who is healthy enough to both rejoin and remain in school and on campus

Ensure your teachers, faculty, and students return to school and campus safely and confidently

Make decisions faster, keep staff and students safer, and ensure your school year remains on track.

Available as a mobile app or a Teams integration

Command Center Power BI Dashboard

FEATURES

One easy-to-use app for all
Track user symptoms, concerns, frequent contacts, location check-ins, and COVID-19 exposure in a single app

Workflow automation
Get alerted if anyone is showing symptoms or is newly cleared to return to campus

Simple data dashboards
Easy-to-read dashboards aggregate detailed tracking data for real-time insights

Reminders and alerts
Push notifications remind users to log responses; alerts broadcast updates and notices to the whole community

Individual case management
Easily monitor any user's health risk status over time

Secure platform
Built on the HIPAA-compliant Microsoft Azure platform

BENEFITS

- Keep faculty and students safer**
Included contact-tracing workflows ensure contacts self-isolate sooner, mitigating spread
- Act on illness disruptions faster**
Clearer, centralized reporting gives you the power to keep campus operating smoothly
- Instill trust and calm on campus**
Reduce faculty and student concerns with consistent messaging and notifications
- Show commitment to a healthy campus**
Show the measures your organization is taking to keep everyone safe and potentially return sooner
- Deploys in just days**
We also implement our solution, to help you improve crisis management in minimal time
