

Back-to-Work Solution

CDC-compliant health tracking that gives employers real-time visibility into who is healthy enough to both rejoin and remain in the workplace.

Ensure your team returns to the workplace safely and confidently

Make staffing or business decisions faster, keep staff safe, and ensure business keeps running smoothly with this quick-deploy solution powered by Microsoft PowerApps.

Mobile App

Employer Power BI Dashboard

FEATURES

Easy-to-use mobile app

Employees track symptoms, report COVID-19 exposure, or express concerns in one outlet

Workflow automation

Get alerted if an employee is showing symptoms or is newly cleared for work return

Reminders and alerts

Push notifications remind employees to log responses and alerts broadcast work notices

Simple data dashboards

Easy-to-read dashboards aggregate employee health data for real-time insights

Employee Case Management

Easily monitor any employee's health risk status over time

Deploy in just 3 days

Get up and running in minimal time
