

We're responding innovation-first to COVID-19's impacts on healthcare organizations, individual health, and our communities.

Along with our partners at Microsoft, we've developed 5 tech solutions that can **reduce the burden on the healthcare system, improve data collection, and give communities peace of mind.** They can be implemented individually or integrated in any grouping to meet the needs of patients, care teams, and public health agencies.

FIVE SOLUTIONS TO HELP FLATTEN THE CURVE

- Test Scheduling App for Field Clinics & More**
 - Goal:** Make it easy to organize and book testing anywhere
 - For:** COVID-19 field-testing administrators and patients
 - Benefit:** Patients schedule drive-up/walk-up test in < 3 clicks
 - Benefit:** Expedited test check-in
 - Benefit:** Centralized test data syncs open slots to resources

- CDC Quick-Reporting App for Providers**
 - Goal:** Remove paperwork & time burden for CDC reporting
 - For:** Providers screening or treating suspected cases
 - Benefit:** Turns paper CDC form into quick, data-rich app
 - Benefit:** Lets providers spend more time with patients

- Symptom Checker Chatbot**
 - Goal:** Expand patient self-assessment and at-home triage
 - For:** Healthcare websites; users needing medical advice
 - Benefit:** Advises on isolation vs. seeking medical care
 - Benefit:** Reduces burden on healthcare system

- Pocket Symptom Checker Mobile App**
 - Goal:** Self-assessment plus symptom tracking
 - For:** Users who suspect COVID-19 symptoms
 - Benefit:** Check and track symptoms over time
 - Benefit:** Send results to a provider or hospital

- Telehealth End-to-End Solution**
 - Goal:** Reduce the burden on healthcare; at-home triage
 - For:** Providers using telehealth for consultations
 - Benefit:** Connects to EHRs to centralize patient care info
 - Benefit:** Enables primary care to reduce burden on ERs

OUR TEAM

For almost two decades, Mazik Global has dedicated its teams to creating and implementing IT and data solutions in the best interest of healthcare businesses to ensure they and their patients thrive. Our leadership team includes longtime CIOs and health informatics leaders, including:

- [Pat Becker, CSO](#)
- [Suresh Krishnan, CTO](#)

Each has made their mark transforming healthcare operations at institutions such as *University of Chicago Medicine* and *AMITA Health* in the last 30 years.
